

# Stout agreements backed by lawful practice

CPCS's lawyers are committed to realizing your infrastructure ambitions from beginning to end.

Our legal experts diligently inspect the legal and regulatory ramifications of your project and devise strategies to minimize roadblocks. They walk you through key negotiations so that you can get the most out of your project.

## CPCS in action:

- **Developing** an institutional approach to manage and maintain the rail sub-sector in Namibia
- **Scanning** international regulations to modernize a regulatory framework on dangerous goods shipment in Canada

**Legal and regulatory solutions**

**Regulatory analysis and design**

**Agreements**

**Enabling legislation/laws**

**Negotiations support**

**Institutional reform implementation support**
